## Spring Tasting Programme

### Saturday 28<sup>th</sup> March - Wines of Southern Italy

I really like Southern Italian wines and hopefully this selection will provide a fitting start to the Spring programme. We will be showing some of the indigenous varieties from Puglia, Abruzzo and Campania. Generally the wines are big, bold and flavoursome and tend to provide some of the best value not only in Italy but from across Europe. I'll be praying for good weather to match these warm, sunny wines.

### Saturday 25<sup>th</sup> April - Australia & New Zealand

Being ANZAC day I thought only Antipodean wines would do for this weekend. Along with South Africa, these two countries are amongst the very few that have not been affected too harshly by the dramatic currency fluctuations of the past twelve months. Therefore, they are increasingly providing not only quality but better value for money. We will have on taste the usual suspects of excellent Sauvignon Blanc and Shiraz, but also some new wines and varieties that demonstrate the innovation that these two countries can consistently produce.

### Saturday 16<sup>th</sup> May - Regional Spain

I have recently selected the wines to taste on this day and I hope to show the great diversity that comes from modern Spanish wine. We will have a selection from perhaps less well-known regions such as Almansa, La Mancha, Rias Bixas, Priorat and Valdepeñas as well as Rioja of course.

I hope to see you at any of the above. All three events will take place in the shop from 11-5pm on the dates shown.

We are now offering 10% discount on any mixed cases of twelve bottles.
